

PRODUCT BROCHURE

CARIBBEAN WATERCRAFT Co

Who we are

We are the Caribbean Watercraft Company, purveyors of aquatic fun, tropical beach enthusiasts and fans of innovative technology. Through our journeys around the globe we have been able to partner with one of the most visionary companies specializing ocean based self-powered vehicles. This led us to Hoverstar Flight Technology inc. For the first time, easy traversal in water at the individual level is now possible thanks to their innovative products. Now, almost anyone can easily explore aquatic surroundings without the strenuous fatigue associated with it - Or... Just sail around like a certain submariner from a comic book!

HOVERSTAR

Flight Technology Inc

2015

Known as the “Tesla Motors” of Flight, Hoverstar Flight Technology Inc began in Shenzhen China with its inventor and his vision for innovative recreation and rescue technologies. Since 2015, Hoverstar and its team of committed developers have secured over 20 patented designs with applications for land, sea and air. With an extensive line of exclusive products ranging from the single user recreation H2, to our all new Hoverstar 9-1-1 rescue series we are paving the way to a new era.

At Hoverstar you will find something for everyone! As flight technology has proven itself time and time again over the years, our founders’ dream collided with creativity and a new machine was born. Ladies and gentlemen, boy and girls, please welcome Hoverstars bedrock founding development, the H1. The development of Hoverstar H1 was and still is the bedrock spring board of our newer more innovative H series products! The Hoverstar H1 is defined as an individual miniature hovercraft and its primary application, amphibious land vehicle.
