## The Radinn Advantage

### Electric

No trips to the gas station or smelly fumes to worry about.

### Powerful

Powerful Jetpack provides plenty of speed and acceleration!

### Long Range

Industry leading batteries give you longer ride time and lets you go further!

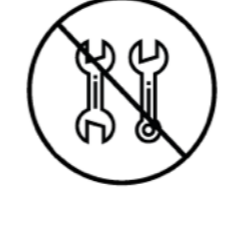

### Silent

Focus on your ride and listen to the water and waves instead of loud engine noises.

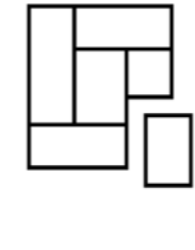

### Connected

Wireless updates add functionality and improve the user experience over time.

### No maintenance

Rinse off with fresh water and you are ready to go enjoy the sunset.

### Modular

Use your existing jetpack in a second board shape with Radinn's easily swappable design.

## What is a Jetboard?

A Jetboard, or electric surfboard as many call it, is an electric board equipped with a jet and controlled via wireless remote. You rip it on the water. In any style you like.

Each board has its unique advantages. Explore is best used on flat, open bodies of waters. It's perfect to go on long rides exploring the nature around you.

Freeride is the ultimate all-round product. It holds the perfect balance between agility and stability. Also great for longer rides. Carve is a little more challenging and takes a little bit longer to master. But when you got it offers a truly unique riding and turning style.

Configure your dream board!

## Make it yours!

With our patented modular design you can have the Radinn Jetboard just as you want it.

### 1. Choose Board type

Whats your riding style?

### 2. Choose Jetpack

What performance do you want?

### 3. Choose Powerpack

What range do you need?

## Power

Our jetpack, the G3 is an extremely powerful and electrically driven water jet engine that can be used with any of our boards. It has been meticulously designed and built to fit the board shape. A flexible and safe power train that allows you to either go exploring with the family or race against anything on the water.

## Tailor your Jetboard from €7,450

You can very easily put together the different components that makes up a jetboard into a product that suits your needs. Just follow the three steps below and you'll end up with a tailor-made jetboard.

Go configure

## Award winning design

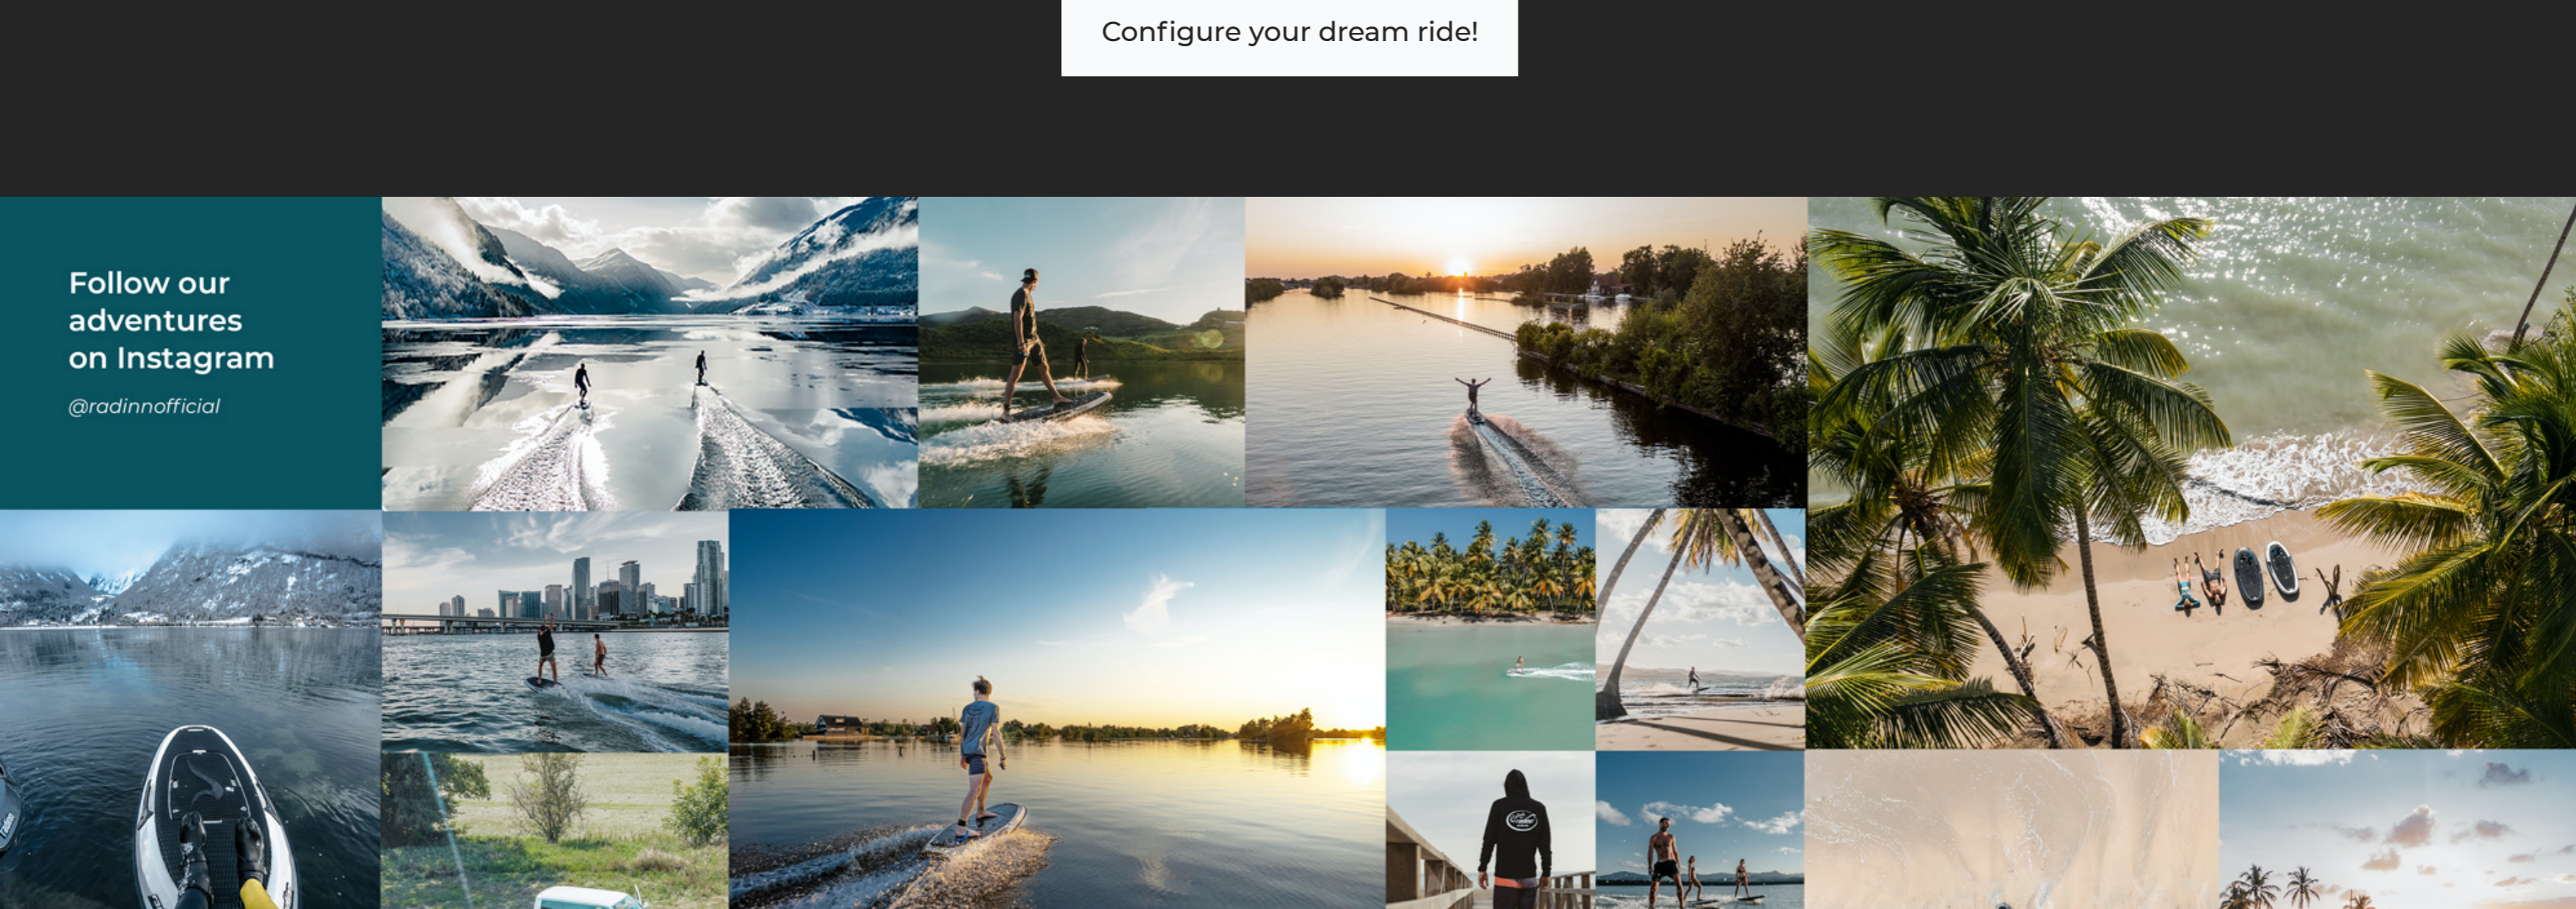

Radinn was awarded gold in the category "Transportation-Nautical/Boats"

The Radinn board was awarded silver in the category "Outdoor And Exercise Equipment - Sports/Toys/Games"

radinn®

Creating waves since 2013.

At Radinn we've created jetboards since 2013. And ever since the first prototype we've seen the unbridled fascination and joy the Radinn board brings out in people wherever it has been showcased.

Our mission is to make jetboarding available to anyone who hungers for action watersports – and to keep striving for faster, more radical, and safer ways to catch that thrilling 'Radinn wave'.
