How do AquaBanas work?

AquaBanas are high quality inflatable floating platforms (called Banas) that connect together to form larger floating platforms called Bana Cities on the water. All systems start with either the Party Bana or the Picnic Bana, and grow from there.

All Banas are loaded with applicable standard features such as:

Standard Features

- 1 - 20cm/8" Drop Stitch Deck
- 2 - Connecting Handles
- 3 - Non-Slip Top Surface
- 4 - Tent Anchor Rings
- 5 - Quick Step Access
- 6 - Stable Ballast Bags
- 7 - Footwell Openings
- 8 - Drop Stitch Table Top
- 9 - Inflated Back Rests
- 10 - Cooler Cut Out
- 11 - Multiple Inflation Valves

How to Start your Bana City

All AquaBanas systems typically start with either the Picnic or Party Bana as a Foundation. There are currently 2 table styles are offered: a 120cm/48" round table, or a 218cm/86" rectangular table called the Picnic Bana.

Picnic Bana
Seats 10 Adults

Party Bana
Seats 6 Large Adults

These items will serve as the foundation to connect all other Bana products to as you build your Bana City system.

Creating a Bana City

P16 Bana System

Create a Bana City for 16 people in about 30 minutes!

AquaBanas are designed to easily connect together to form larger platforms called Bana Cities. The handles on the edges of the Banas have a unique fastener that quickly connects "them together" and holds securely while in use.

Four easy steps to create your Bana City!

1 - Start with a Bana Foundation table

2 - Add another Bana, such as a Splash Bana

3 - Add Loungers as desired.

4 - Add a Bana Tent.

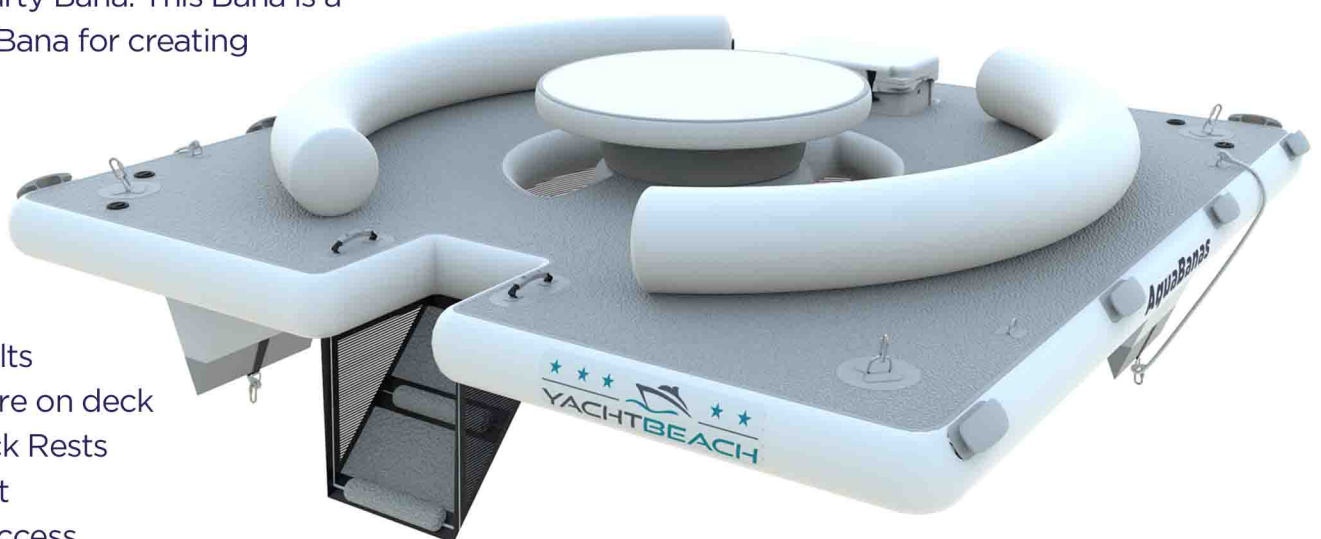

All AquaBanas decks are designed to connect to Bana Tents.

Party Bana

Have lunch on the water, or hang out all day on the Party Bana. This Bana is a foundational Bana for creating a Bana City.

- Party Bana
- Seats 6+ Adults
- Room for more on deck
- Inflatable Back Rests
- Cooler Cutout
- Quick Step Access

Transition Bana 410

The Transition Bana 410 is designed to connect most major manufacturers water park systems together!

FINALLY - Someone has designed a way to interconnect almost every major water park manufacturers products together into one continuous system! This is big news! Whether your connection system is a 5 ring design, or a 200cm wide design, or connects at 410cm with handles on top, the Transition Bana 410 has connections in all the appropriate places to seamlessly make the connection. This will allow you to connect AquaBanas and other YachtBeach products directly to existing water parks for more versatility!

The Transition Bana 410 is also a great space for Yoga and other exercise activities!

The Bana Tent BT180-WT is the perfect tent for the Transition Bana 410 as it provides great shade and allows people to easily walk through to adjoining decks.

Custom POP Pools

Courtesy
 MY Andiamo

The AquaBanas POP Pool is a revolutionary inflatable pool design for yachts. POP stands for Pop Out Pool, and it allows the netted pool portion to be taken out separately from the deck. The pool deck is also broken into smaller pieces that are much lighter and easier to handle, deploy and stow. All POP Pool designs are custom fitted to each yacht.

Custom Jet Ski Docks

Courtesy of MY Big Sky

AquaBanas provides a Jet Ski Dock solution that makes handling, deployment and stowage much easier. These multi part inflatables are designed to fit the curve of the transom, and have bollards, as needed, to keep the inflatable from going under the swim platform. All Jet Ski Docks have non slip surfaces and are custom made to each yacht.

The Inflatable is separated into parts that are able to be securely connected together while at the same time are lighter and easier to handle

Custom Yacht Slides

“I LOVE INFLATABLE SLIDES” - said No Yachtie EVER!

Yacht Slides are incredibly popular with guests, but are generally not liked by crews at all. The AquaBanas team has designed and installed hundreds of slides on the largest yachts in the world. Let our experience give you new ways to handle slides and other large inflatables. All slides are custom fitted to each yacht.

P10 Combo

The P10 Combo is perfect for sandbars and other shallow water front locations like beach bars and restaurants.

The unit consists of a Double Lounger (up to 3 can be connected), a Command Bana, and a Swim Up Bana. Add some cool floating aftermarket seats to allow people to float in the water while they consume their favorite beverages from the coolers located in the built in cooler cut outs. The Quick Step inside the Command Bana provides easy access up onto the decks where you can easily walk around on the non-slip surface. It's easy to launch kayaks and paddle boards off the fingers of the Swim Up Bana as well.

This little powerhouse combo can provide a full day of fun!
